

May 30, 2018

Dear Ms. Cleary;

On behalf of the Huron-Perth-Oxford Chapters of the Heart and Stroke Foundation, thank you very much for your generous corporate donation this year to the Big Bike event. In total, your company along with your employees has given \$2050 to help fund vital research for heart disease and stroke.

Thank you for choosing to support the Heart and Stroke Foundation, as we celebrate the 25th year of Big Bike in Ontario. You were an energetic captain that motivated your team.

Cardiovascular disease is a leading cause of death for Canadian men and women. As a matter of fact, every 7 minutes, someone in Canada dies from heart disease or stroke.

All of the money raised through Big Bike helps support the Heart and Stroke Foundation. Donations are used to help fund critical research that's preventing heart disease and stroke, saving lives and supporting survivors and their families.

That's important because funding for research is in jeopardy. But we can ensure critical research can continue.

Sincerely,

A handwritten signature in black ink, appearing to read "Angela Horbanuik", written in a cursive style.
